MINERALS COLLECTION

Blending elements from our natural world

WWW.BANCROFT-FABRICS.COM / 01274 518888

BANCROFT - GLOBAL SUPPLIER OF CONTRACT FABRICS

Our **Minerals Collection** is a fusion of Earth's natural patterns and rugged textures providing 4 distinctive designs. From the crisp hexagons of Calcite, the petite diamond patterned Azurite, to the bold textured Ammonite and dramatic Helidor geometric - engaging fabrics suited to high-end hospitality and leisure installations.

The 5 colourways, Silver, Amethyst, Bronze, Sapphire and Citrine blend together the shades found in lustrous metals, natural rocks and precious gem stones for a richly opulent palette.

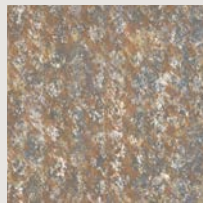

Designs can be printed onto a selection of cloths for all end uses - curtains, upholstery and bedding. See back page for **FR PFP Base Fabrics - Range 2** for options and specifications or contact our Sales Desk on 01274 518888 for further information.

Ammolite - Amethyst
